CATEGORY	DESCRIPTION
<b>INFORMATIVE SITE</b>	Websites that give general information about the topic of interest: definitions, regulations, examples of actions...
<b>HELPING ORGANISATION</b>	Organisations that propose industries to become members to benefit from their services (access of useful tools to implement sustainable practices in their supply chain)
<b>RESEARCH PLATFORM</b>	Online platforms that give access to multitude of resources about sustainable corporate practices and regulations
<b>RESPONSIBLE PURCHASING GUIDE</b>	Guides that include the steps to be taken to integrate sustainable purchasing concepts into the company in the best possible way (methods, mindsets, examples, tools...)
<b>FORM/ EVALUATION GRID</b>	Other associations or organisations will propose evaluation grids or forms to be completed by companies or their suppliers to ensure that their social and environmental performance is satisfactory.
<b>WORKSHOP/EVENT</b>	What could be better than workshops and other events to address in a concrete way the issue of sustainable purchasing... It is through the exchange of experiences that we learn the most. This allows individuals to get involved, ask questions to the most experienced, collaborate, be inspired...
<b>INTERACTIVE TOOL</b>	Those are online tools that help companies by proposing interactive frameworks that will be adapted to the company's specific needs
<b>CONSULTING TOOL</b>	Toolbox proposing indicators or other tools to evaluate the sustainable performances of a firm and its suppliers
