

ADVANCED COURSE ON PROCESS SAFETY IN THE LIFE SCIENCE INDUSTRY

.....
11 – 15 March 2024
LEUVEN | FACULTY CLUB

DEAR MEMBER,

essenscia would like to present the details of the 'Process safety in the life science industry' advanced course organized by the essenscia Process Safety Academy. For additional information concerning these topics please feel free to contact **Mr. Geert Boogaerts** (+32 476 906 663 | gboogaerts@essenscia.be)

Programme

This advanced course wants to increase process safety capabilities within the life science industry. To achieve this, the course was co-developed with partnering tier-1 pharmaceutical companies. The essenscia process safety academy aims, with this 5-day 's advanced course, to provide industry professionals with a solid basis and wide understanding of the intrinsic hazards, possible risks and appropriate safeguards that are specific to their life science industry. Therefore, also the interaction with the biosafety domain will be covered. The lectures are given by academics and industry specialists in their discipline. After the course a certificate will be granted at completion of the course. And for each day a syllabus is provided by the organization.

Governance board and steering committee

- ✓ **MSc. Ivan Pelgrims**,
President essenscia Process Safety Academy,
General Manager Evonik, Board Member of essenscia
- ✓ **MSc. Yves Verschueren**, Managing Director essenscia
- ✓ **MSc. Frédéric Druck**,
Director essenscia wallonie and brussels
- ✓ **MSc. Ann Wurman**
Director essenscia flanders
- ✓ **MSc. Peter Jacobs**, Safety & Health Manager,
Ajinomoto Bio Pharma Services
- ✓ **MSc. John Kelleher**
VP EHS at GlaxoSmithKline
- ✓ **MSc. Filip De Proft**,
EHS Director Campus Belgium Johnson & Johnson
- ✓ **MSc. Vicky Bruggeman**,
General Manager Johnson & Johnson Geel

Attendees

Professional engineers with experience in the life science industry and from whom an understanding and correct application of process safety thinking is expected to identify hazards and potential risks from occurring by assuring that the right level of control is in place and monitored. This course will help them to deepen the expertise in their roles (e.g. operations, engineering, maintenance, inspection, safety professionals...).

The governance board and steering committee of the essenscia Process Safety Academy recommend this course as :
«A strong introduction, to process safety in the Life Science Industry».

DAY TO DAY OVERVIEW OF THE PROGRAMME :

08:00 – 17:30

DAY 01

MONDAY 11 MARCH 2024

Process Safety Management and specific risks in the Life Science Industry

Welcome speeches

Olivier Monami, EHS director GSK

The business case for PSM

Introduction to Process Safety in the Pharmaceutical Industry

Steve McGrady, GlaxoSmithKline

Are things improving?

Process Safety Management Systems, a generic approach

Geert Boogaerts, process safety academy, essenscia

An integrated safety management system

Intrinsic hazards in the API development and production

Christine Fannes, Johnson & Johnson

What can we measure?

Hazardous gasses used in pharma: nitrogen, oxygen, ammonia

Dan Benton, GSK

Do we know them well enough?

“Process safety
needs integration
in the day to day
operations”

JOHNSON & JOHNSON

DAY 02

TUESDAY 12 MARCH 2024

Intrinsic Hazards of our molecules and processes

Explosion Hazards and ATEX

Mario Versteels, IFF

Approach in practice

Static Electricity

Joseph-Marc Francois, Dekra

A sniper to look for

Explosion Safety: Dust explosion

Federic Norman, ADINEX

It can happen in our industry

HOST CITY

Leuven

LOCATION

Faculty Club
Groot Begijnhof 14,
3000 Leuven

LUNCH

3 course menu

DAY TO DAY OVERVIEW OF THE PROGRAMME :

08:00 – 17:30

DAY 03

WEDNESDAY 13 MARCH 2024

Risk Analysis in the Life Science Industry

Risk Analysis: HAZOP

Geert Boogaerts, process safety academy, essenscia

Pitfalls

Risk Analysis: HAZOP, WHAT-IF, LOPA, SIL

Charly Picard, Johnson & Johnson

What to use and when to use it?

Workshop: practical exercise on HAZOP

Danielle Keijzer, Johnson & Johnson

In practice

DAY 04

THURSDAY 14 MARCH 2024

Safeguards in the Life Science Industry

Maintenance and Reliability

Steve McGrady, GlaxoSmithKline

The relationship between reliability and risk

Mechanical and Structural Integrity

Metalogic

Can we trust the equipment?

Human & organisational factors

Steve McGrady, GlaxoSmithKline

Operational Discipline and Controls

Steve McGrady, GlaxoSmithKline

What to watch out for?

DAY 05

FRIDAY 15 MARCH 2024

Process Safety and Biosafety

Introduction to Biosafety

René Custers, VIB

Creating a safe and responsible work environment

Process Safety meets Biosafety

Michel Cereghetti, GSK

Industry approach

Instrumental Safety & Biosafety

Jaspreet Chana, ERM

How to safeguard

Strategic activities of the life sciences industry

Jan Van der Goten, Johnson & Johnson

Life visualization

Granting of the certificates

“ The aim of this short-course is to build additional process safety capability across our Engineering and EHS teams ”

GLAXOSMITHKLINE

REGISTRATIONS

www.essenscia.be/opleidingen/process-safety-academy

SUBSCRIPTION FILE

The essenscia Process Safety Academy and the essenscia Chair Safety Engineering organize a 5-day Advanced Course on Process Safety.

PARTICIPANT
